

TECHNIP ITALY

Rotterdam, 12th April 2010.

Proj. 2305 — ROTTERDAM NExBTL PLANT – NESTE OIL

To whom it may concern

We hereby certify that Mr. Gerald Evans, Civil Quantity Surveyor, has been working from January 2009 until to date with Star Engineering B.V. for Technip Italy SpA at Rotterdam NExBTL Project, Rotterdam, Netherlands.

The Renewable Diesel Refinery Project with value of approx. 690 mil. Euro includes among others, 1 Process Unit, Pipe Racks, 1 Storm water pond, Tank farms, 1 Pretreatment Building, 1 Administration Building, 1 Main Substation Building, 1 Main Electrical Substation, 1 Operation Center Building, Maintenance and Workshop Building, 1 Waste Water Treatment Station to produce 800,000.00 t/a renewable diesel fuel.

His duty during the time was the quantity surveying of the civil construction of all structures and buildings of the plant. Furthermore the cost estimation of additional works to ensure the cost for all civil at his tasks.

Mr. Evans always identified himself with the assumed responsibilities a positive manner, realizing the objectives set by himself and those agreed upon. He has both excellent technical and microeconomic qualifications as well as very rich professional experience. A high degree of reliability, systematics, sense of responsibility and cost consciousness consistently characterized Mr. Evans work ethic. The quality of his work always met demands. We thank Mr. Evans for his continuously productive collaboration during the time.

Mr. Evans leaves this job due to the completion at July 2010 of this construction area.

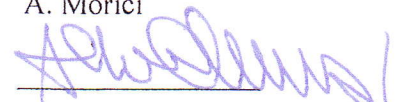

We wish Mr. Evans all the best for the future and we have no hesitation to recommend him as Site Civil Quantity Surveyor associated with the construction and erection for future projects.
