

KALDEWEI

KALDEWEI BESPOKE

From the sketch to the finished product – KALDEWEI transforms your ideas into your own incomparably individual KALDEWEI BESPOKE PRODUCT

KALDEWEI Manufactory

Creating real values with a long service life is imperative in our fast-paced world. KALDEWEI bespoke products represent the highest quality, fair working conditions, the best raw materials and sustainable circularity. The lifelong enjoyment for the user and aesthetic design should in no way be inferior to this. KALDEWEI MANUFACTORY, with its highly specialised technical craftsmanship, is the ideal place to convert creations born and developed in the A&D community into your individual KALDEWEI BESPOKE PRODUCT.

KALDEWEI Limited Editions – Your favourites

In concept studies for the MIENA, MING and NUEVA washbowls, KALDEWEI experimented with steel enamel in a completely new way. In order to show how changeable and individual the circular material is in terms of colour, finish, structure and feel, a wide variety of designs were created – from exceptional decors in quiet and loud nuances to unusual bicolour variants and bold metallic effects. The sophisticated unique designs are the product of creative craftsmanship and enrich the Luxsustainability® world from KALDEWEI.
