

Dimensions of flat areas and clearances for rim-mounted tapware according to EN 232

NOTE: The flatness tolerances apply within D2.
The dimension E shall have a maximum variation of 1 mm.

Symbol	Values	Designation
D1	≥ 65	Diameter of the flat area intended to accommodate the tapware on the top of the rim
D2	≥ 75	Diameter of the flat area intended to accommodate the tapware on the reverse side of the rim
E	≤ 18	Thickness between top and reverse side within D2
